ABOUT ME

Dynamic and results-oriented travel professional with deep firsthand destination expertise in Kashmir and Goa, enabling the creation of authentic and affordable travel packages. My background as an Operations Executive at Thrillophilia honed my skills in seamless travel planning and execution for discerning international clients in the US and UAE markets. I further strengthened my operational and sales acumen during a key 2-month internship with Trip String Goa DMC (June 7 - Aug 7), where I played an integral role in operations, sales support, and digital transformation by building the company website and implementing customer relationship management (CRM) software. This hands-on experience, combined with my proficiency in leveraging AI-powered tools and SuFo software, allows me to merge practical travel knowledge with technological innovation to design unique itineraries and foster unforgettable client journeys.
